Problem statement : To leverage the technical skills of women through training programs and advance job platforms.
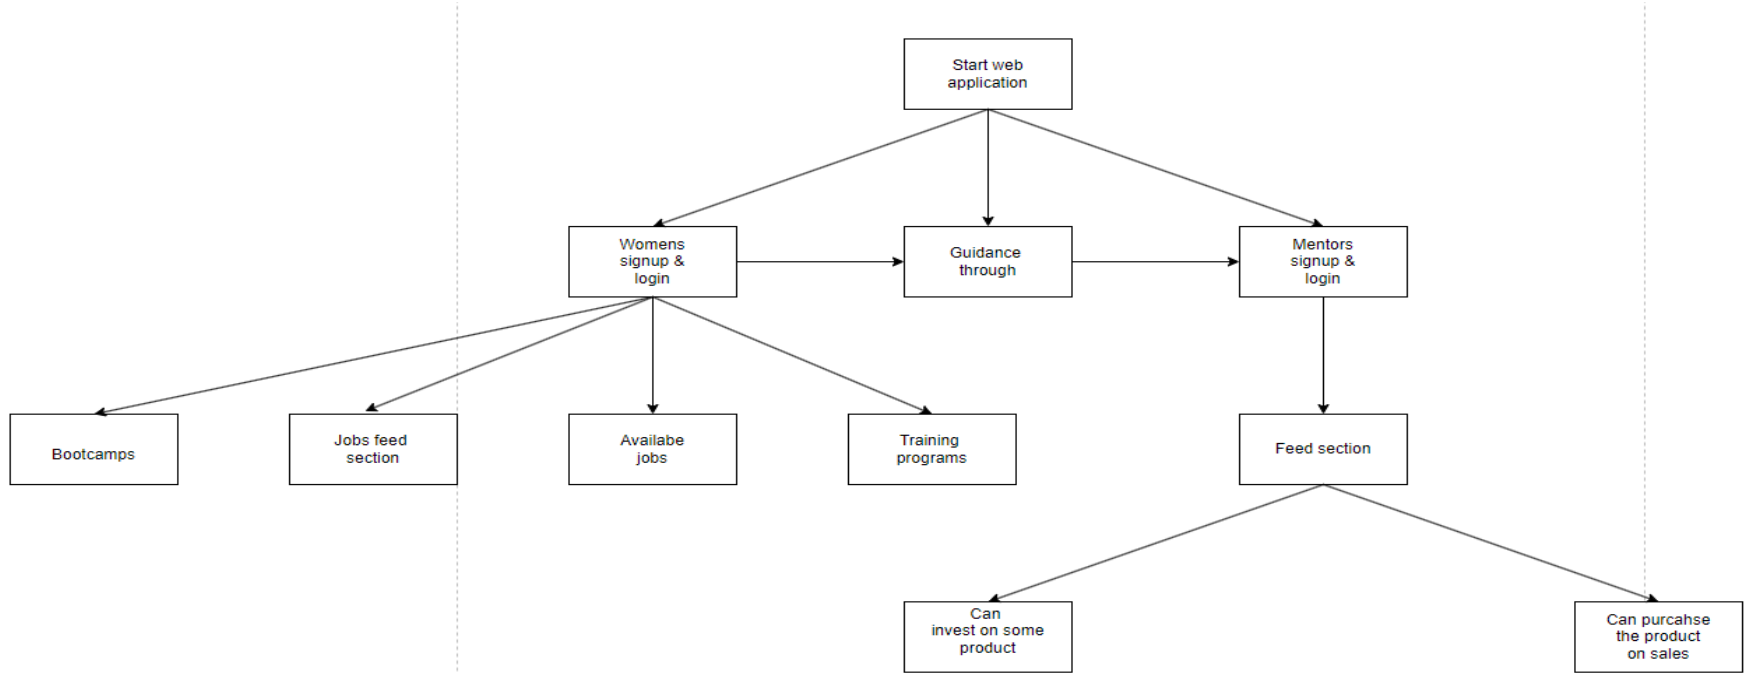

Proposed solution

The ultimate platform to leverage the skills of women through trainings and helping them to find their jobs. The increasing presence of women as entrepreneurs has led to significant business and economic growth in the country. Many a times women living in remote areas don't get an opportunity to work on their idea. Also women have great start ups, they might be small house hold start ups or on large scale, but do not have the knowledge or enough money to grow them. Alongwith it, there are various problems that women face in their day today life. The main problems that they face are, the lack of knowledge of various scholarships and various rights that women have.They too wish to get right jobs as well. So here we are to help such enthusiasts women , where they can put their startups, businesses and ask for help from the mentors. They can also seek job opportunities. It also provides a platform for women to know the various Scholarships, Women Rights.

Objectives

1. To provide career trainings for women.

2. To provide the mentor dashboard where they can choose the right guide.

3. To provide feed section to enlarge their market or explore the trends of todays world.

4. To provide smart notifications section which can help to provide job or any special alerts.

5. To provide the bootcamps for essential skills.

Architecture

Tech Stack

Backend : Django, Spring Boot

Frontend : React

Database : dbsqlite3

Tools : VS-code, Postman and Github

Applications

1. Women can get essential job ready programs.

2. Women can be self-dependent for economy.

3. Women can empower herself in domain of her choice.

4. Women can develop their own startups.

5. Women can get job opportunities through this platform

6. Women can start their business under the guidance of their choosen mentor.

Conclusion

This platform can ultimately perform the women empowerment by providing the right opportunities for the women.

This platform will provide jobs, internships, training programs, bootcamps, mentorships, financial aids which can ultimately solve the problems of many women.
